

Zebra Supplies

Zebra Technologies provides both in-stock and custom-made media solutions for all applications, including more than 1,000 combinations of high-quality and reliable labels, tags, and ribbons. All products are designed and tested on Zebra printers to ensure optimum print quality.

Labels

Zebra offers both direct thermal and thermal transfer labels. Zebra's thermal transfer labels provide more durable, long-lasting results. Zebra's direct thermal labels provide an inexpensive way to print paper labels for use in a multitude of general-purpose applications.

Receipts

Zebra has the right receipt printing solution for your business. Zebra receipt will allow you to provide accurate, readable receipts with each transaction, which ensures accurate records management, returns processing, and customer care.

Ribbons

Zebra has the right thermal transfer ribbon for your application, whether you require wax ribbons, wax/resin ribbons, or resin ribbons.

RFID Supplies

Zebra Printer Supply - Labeling Supplies & label printing supplies for Europe. Zebra provides more than 1,000 combinations of supplies for every budget and need.

Tags

Zebra has the right tag for your need, whether you need tags for bus tickets or steel mills, or tags that withstand high heat, chemicals, and solvents. Zebra offers both direct thermal and thermal transfer tags.

Wristbands

Zebra wristbands are available in direct thermal, thermal transfer, or RFID formats, deliver secure tracking as well as excellent print quality and color-coding options.

Custom Supplies

If a stocked ZipShip label or tag doesn't solve your particular needs, Zebra offers custom converting capabilities. For a quote on custom materials that match your specifications, contact us at +1 866 230 9495, or learn more about how to buy custom supplies.

Cards

Zebra produces a complete line of durable plastic cards, including cards with special security features. For card supplies, visit our ZebraCard.com site.

Value Packs

Value Packs offer a perfectly matched bar code labeling solution in one convenient package.

Printing Solutions for Business Improvement

110XiIIIPlus

The entry-level printer in the High Performance line, Zebra's 110XiIIIPlus is a true 4 inch performance printer. This hardworking printer is the one to call on for heavy-duty, industrial operations. The 110XiIIIPlus printer is available with either 4.09 inch or 3.2 inch widths. Choose the resolution that best meets your needs, either 200, 300, or 600 dpi. When choosing resolution, note that 600 dpi is only available with 3.2 inch width and 4 inch per second speed.

Resolution

203 dpi (8 dots/mm)
300 dpi (12 dots/mm)
600 dpi (23.5 dots/mm)

Width

200 dpi:
4.09" (104 mm) maximum
300 dpi:
4.09" (104 mm) maximum
600 dpi:
3.2" (81 mm) maximum

Speed

203 dpi:
10" (254 mm)/sec
300 dpi:
8" (203 mm)/sec
600 dpi:
4" (102 mm)/sec

Zebra ZM400

Zebra's best-in-class Z Series printers just got better! The ZM400 includes additional productivity-enhancing features and modern, flexible network connectivity for easy system integration in most manufacturing, warehousing and business applications. This industrial/commercial workhorse also delivers efficient 4-inch-wide labeling thanks to its quick throughput and 10 inches-per-second print speed.

Built RFID Ready (upgrade kit for RFID enablement not yet available in North America) and offering a multitude of options including 600-dpi (24 dots/mm) resolution, the ZM400 is upgradeable to grow with changing needs. Plus, design enhancements make this new-generation Z Series printer even easier to operate, load, and maintain.

Resolution

203 dpi (8 dots/mm)
300 dpi (12 dots/mm)
600 dpi (23.5 dots/mm)

Width

4.09" (104 mm)

Speed

203 dpi
10" (254 mm)/sec
300 dpi
8" (203 mm)/sec
600dpi
4" (102 mm)/sec

intelligence everywhere™

MC70 Handheld Mobile Computer

Put the power of a cell phone, PDA, computer, scanner and imager in the hands of your mobile workers with the first rugged enterprise digital assistant. Designed to withstand all-day everyday use in nearly any environment, this rugged compact device delivers true anywhere anytime wireless WAN/LAN/PAN voice and data communications, including superior voice functionality, data capture and the power to run nearly any application.

This device provides everything your mobile task workers need to achieve a new level of enterprise productivity — whether they are in the warehouse, on the delivery route or in a distribution center.

MC75 Worldwide Enterprise Digital Assistant (EDA)

No matter what your workers need to get the job done, Motorola's MC75 Worldwide Enterprise Digital Assistant delivers by combining an unparalleled number of business capabilities into an easy-to-carry rugged device. 3.5G HSDPA and 3G CDMA-EVDO (Rev A) support provides high performance voice and data services around the globe.

Your workers will enjoy having all the features they need right at their fingertips in one device designed to endure all-day, everyday use outside the enterprise — including push-to-talk, integrated GPS with superior sensitivity and tracking capabilities, 1D and 2D bar code scanning, a high resolution 2 megapixel autofocus color camera, 802.11a/b/g wireless LAN (WLAN), Bluetooth and IrDA connectivity.

MC50 Handheld Mobile Computer

Your managers, executives and salespeople can't be tied to a desk. To be effective, they have to be on the shop floor or with an important customer. With this rugged enterprise digital assistant, they have immediate access to the most current enterprise information, using both voice and data communications on a single device.

Integrated voice over IP (VoIP) capabilities allow your managers to use the MC50 as a total communications platform while the built-in scanning and imaging features allow managers to serve customers, maintain inventory, perform line-busting activities and other process-oriented tasks.

MC9090-G Handheld Mobile Computer

Designed for workers inside your four walls, the MC9090-G offers advanced data capture options and integrated wireless LAN/PAN plus a comfortable ergonomic pistol grip to enable real-time data collection in scan-intensive environments — in the warehouse, on the loading dock, out in the yard, and in the back room.

Symbol LS3578-ER Rugged Bar Code Scanner

Scan all 1D bar codes from practically anywhere with onboard Bluetooth® capability. The Symbol LS3578-ER rugged cordless scanner reads labels as far away as 45 feet and as close as 4 inches, delivering the widest working range of any rugged, handheld scanner.

The scanner gives operators a 150-foot range, which far exceeds the 6-foot range of corded devices, and its ergonomic design is comfortable during long shifts. Designed for use in harsh environments, this scanner withstands multiple drops onto concrete and has IP65-rated sealing for protection against the elements.

Symbol DS6700 General Purpose Bar Code Scanner

The DS6700 general purpose bar code scanner combines the functionality of a bar code scanner, digital camera and document scanner in a single, cost-effective device. From point-and-shoot simplicity to accurate bar code scanning to capturing full-size documents, this device is the right tool for the job. Text enhancement technology makes the scanner able to handle even the finest-grain text. Omni-directional scanning and a wide working range means that even novice users can begin scanning with minimal training.

WT4000 Wearable Terminal

Arm your workers with advanced real-time hands-free mobile computing with the Motorola WT4000 Wearable Terminal. This rugged device will allow you to achieve maximum error-proof productivity, operational efficiency and accuracy through voice compatibility for streamlined warehouse and package handling functions.

Mobility Services Platform – Motorola/Symbol MSP

ADSI offers a powerful MSP solution giving you the control to automate and troubleshoot the staging and provisioning of your mobile devices from virtually any location. Whether you have multiple devices in a single location or around the state or country, the MSP solution is scalable and gets users up and running fast. The system helps to ensure that devices are always loaded with the most current software — from applications to operating system — and enable rapid troubleshooting of issues to help users stay up, running and productive.
