

ADSI Logistics Software Solutions

ADSI develops multi-carrier shipping software with the 5 Rights of Logistics in mind. These tools are designed to increase operating efficiencies by reducing transportation spend and increasing labor savings—allowing you to achieve customer service excellence. Your customers know their Rights—ADSI does too.

■ **Ship-IT™**

Simplify the shipping process with a single solution for all carriers. Control freight costs with address validation and the ability to compare carrier rates and time in transit. Save time preparing international shipments with automated export documentation and AESDirect filing, and simplify shipment of hazardous materials with on-board compliance labeling.

Get it right the first time

goods • quantity • place • time • price

■ **Pack-IT™**

Pack verification tool to capture and validate line item detail such as serial number, lot number, and quantity shipped. Keep track of multiple-carton shipments, increase accuracy and improve productivity.

■ **Move-IT**

Fully automated package handling equipment featuring overhead scanners, auto dimension and in-motion scales. Reduce labor costs with print and apply automated labeling.

■ **Track-IT**

Real time shipment visibility and tracking feature. Improve customer satisfaction with advance e-mail shipment notification and automatic tracking.

■ **Report-IT**

Ad hoc, on-demand reporting tool; easy to configure. Robust data dashboard analyzes all transportation activity. Provides information you need to make better decisions about which transportation partners are best for your business.

Our Turn-Key Solutions Lead Businesses to Greater Profitability.

Turn-Key Solutions

From device testing to service contracts, ADSI offers essential resources needed to ensure a smooth and efficient system integration for your business.

MOBILE COMPUTING

Industrial Class

Motorola's industrial class mobile computers meet the needs of your most demanding environments.

Enterprise Class

Motorola's enterprise class mobile computers offer small and lightweight PDA styling with durability, high performance processing and barcode scanning.

BARCODE SCANNING

General Purpose

Meeting a variety of needs, these scanners range from high-end, feature-packed scanners to value-priced scanners for small business.

Rugged

Motorola's rugged scanners combine industry-leading data capture technology with an exterior housing for the harshest environments.

BARCODE PRINTING

High-Performance Printers

Zebra's high-performance Xi series printers bring durability, quality and speed to demanding applications and harsh environments.

Desktop Printers

With low-to-medium volume printing applications, Zebra desktop printers offer a range of solutions and options.

Mobile Printers

For barcode labels, receipts or tickets, Zebra mobile solutions increase employee productivity by enabling printing on site and on demand.

WIRELESS INFRASTRUCTURE SOLUTIONS

Motorola's portfolio offers everything required to enable an end-to-end wireless enterprise, indoor or out.

OTHER ESSENTIAL HARDWARE

ADSI offers scales, servers, and workstations from best-in-class manufacturers. Let our professional services team make product recommendations to complete your solution.
