

ADSI Ship-IT™ Software Solution

Ship-IT™ is a multi-carrier shipping and logistics solution used to compare rates, track packages and automatically generate domestic and international shipping documents — all from a single system. With Ship-IT you'll reduce shipping errors, increase labor savings, and achieve customer service excellence.

- **More Carriers**

Easily compare carriers, freight costs, service level and transit times with more regional, national and international carriers.

- **Easy AESDirect Filing**

Simplify the government required, electronic filing process to automate timely submission. Avoid costly fees and shipment delays.

Get it right the first time
goods • quantity • place • time • price

- **More Connectivity**

For corporate-wide data sharing, Ship-IT offers more choices for an optimal integration path with connectivity to your WMS or Enterprise system.

- **On-Board Compliance Labeling & Documentation**

A library of carrier-required labels simplifies the process for your small parcel, LTL and international documentation requirements.

- **Ease of Use**

Eliminate the training process and reduce errors with on-screen help tools such as pop-up windows, audible alerts and preview screens. Scan the order barcode, the business rules populate the form, and the shipment is complete.

- **Rate History**

Maintain customer preferred carriers and corporate discounts in history. Reduce transportation costs by easily recalling agreed upon rates.

Our Turn-Key Solutions Lead Businesses to Greater Profitability.
