

# ADSI Ship-IT™ International Software

**Manage international shipping operations in a fraction of the time when you add Ship-IT™ International to your workflow. Ship-IT International provides a complete set of export shipping tools, including:**

- International carrier rating, routing and service selection
- Automated export document preparation
- Automated AESDirect filing
- Canadian address validation
- International consolidation
- Restricted party screening

Ship-IT International can be integrated to automatically receive international orders and streamline the entire process. Ship-IT will analyze orders and populate necessary shipping details, verify shipments for compliance purposes, route and rate shipments, and produce export labels and documents—all within seconds.

**Get it right the first time**  
goods • quantity • place • time • price

## International Carrier Routing and Rating

Completely automate international carrier routing and rating. Export shipping rules can be embedded into Ship-IT and automatically applied to orders. Benefits include:

- **Elimination of routing errors.** With Ship-IT managing the routing and rating process, you can be sure that the right carrier and service levels are selected every time.
- **Elimination of manual processes.** Automate the filing of international shipping data at AESDirect.gov and the ITN number for carrier compliance.

## Fast, Accurate Export Documents

Ship-IT can also produce a wide range of export documents, including:

- Carrier Labels, Packing List
- Commercial Invoice
- Shipper's Letter of Instruction
- Certificates of Origin
- Shipper's EEI Instructions
- Conformity Certificate
- Other Export Documents

**Our Turn-Key Solutions Lead Businesses to Greater Profitability.**

# Fast, Accurate Export Shipment Processing with Ship-IT International

## Submit-IT: Easy AESDirect Filing

Ship-IT can also be configured to automatically file Electronic Export Information (EEI) to the Automated Export System (AES)<sup>1</sup> using ADSI's Submit-IT solution. Benefits include:

- Proof of compliance. Submit-IT returns an Internal Transaction Number (ITN) as confirmation that you have successfully filed your export documentation.
- Prevention of errors. Submit-IT generates a response message when filing data is incomplete, omitted, or inconsistent. This allows you to correct errors early in the process, before your goods are subject to delays or penalties.

## Address Verification

Detect and resolve inaccurate addresses long before the carrier arrives to pick up deliveries. Ship-IT's automated address verification and standardization tools are designed to check addresses for accuracy and suggest alternatives if an error is discovered.

## International Shipment Consolidation

Ship-IT can consolidate export shipments by country and by customer, resulting in an expedited clearance process at Customs.

<sup>1</sup> ADSI is AESWebLink Certified to comply with the mandatory electronic reporting of export information Public Law 107-228 published on June 2, 2008.

The screenshot displays the ADSI Ship-IT: Shipment software interface. It features a menu bar with options: File, Shipment, Detail, Multi-Piece, Configuration, Batch Shipping, User, and Help. The main window is divided into two sections: 'Current Shipment (Package 1 of 1):' and 'Last Package'. The 'Current Shipment' section contains a form with the following fields and values: Order Number (1645061), Customer P.O. (09-096), Company (ELECTRONIC CARD UNIVERSAL SYSTEMS), Contact (Receiving), EMail (rogeltov@ecus.com), Phone (800-826-0490x1200), Address1 (SAN FRANCISCO NO 739), Address2 (COL DEL VALLE), City (MEXICO CITY), State (DF), PostalCode (03100), Country (Mexico), Shipper (ADSI USA), Service (UPS Worldwide Saver), Packaging (CUSTOM), Terms (Delivered Duty/Tax Unpaid), Commitment (2nd Day), Weight (20.35), Dimension (10x10x10), Commodity Class (55), Base (0), Discount (0), Total (\$0.00), Time In Transit (2nd Day), and SED\_Method (2). The 'Last Package' section shows: Order Number (1645060), Company (COPIGES SISTEMAS DE IDENTIFICACAO SA), Service (UPS Worldwide Expedited), Weight (10), Total (\$176.35), and Track/PRO Number (1290X6X26710000040). At the bottom, a status bar indicates 'Package Rated Successfully', '13:48:32', and 'CNU1263W2'.

The routing and rating process ensures the right carrier and service levels are selected every time.

## Automated Restricted-Party Screening

Ship-IT International can also be configured to automate the restricted party screening process, ensuring that your operations are in compliance.

## Flexible Configuration Options

Ship-IT can be integrated to receive export order and shipping instructions from your enterprise, order entry, WMS or other host systems. Ship-IT also includes a flexible user interface that enables users to easily view, edit and process export shipments.
