

# ADSI Address-IT Software Solution

No company can afford to have delivery problems on customer orders. It's too easy for dissatisfied customers to take their business elsewhere. Equally important, if your carrier detects the delivery errors, the additional charges, which may range from \$11.00 to \$77.00 per shipment, quickly add up. Make sure you have a multi-carrier shipping solution with accurate delivery addresses—every time with Address-IT.

## Intelligent Address Verification to Eliminate Delivery Issues

With Address-IT, ADSI's automated address verification and standardization shipping software tool, you can pre-emptively verify addresses and fix any problems long before the carrier arrives to pick up your deliveries. Here's how it works:

- Address-IT is installed on ADSI's Ship-IT™ multi-carrier shipping software solution.
- Once Ship-IT receives an order, Address-IT analyzes the delivery address for accuracy and displays a confidence rating on-screen for the user.
- Depending on the rating, Ship-IT will automatically accept the corrected address and process the shipment or alert the user with options to resolve the issue.

## Eliminate Time-Consuming Manual Address Lookups

Address-IT makes it quick and easy for your shipping staff to resolve delivery address questions right on the shipping line with a single platform. An intuitive "Results" window displays delivery details and on-screen tools to handle the address issues within seconds.

Address Verification Results

The Ship To address has been validated against national databases. Please review the results and make a selection to continue.

The Confidence Level is an indication of the accuracy of the verification result. 100 indicates that the result is most likely correct. Lower values indicate a lower value of confidence, with 0 being the least confident.

Click the desired result and then OK to use that address.  
Click Cancel to abort the current shipment.  
Click Use Original Address to use the original address.

Verification Results

Conf. Level	Address1	City	S...	Zip
78	2401 Hassell Rd Ste 1525	Hoffman Estates	IL	60169...

OK Cancel Use Original Address

Address-IT analyzes each delivery address and returns a single match with the correct zip code. The user decides how to handle the address, using the buttons at the bottom of the screen.

Our Turn-Key Solutions Lead Businesses to Greater Profitability.

# Addressing Solution for your Business

Increase order accuracy and labor savings with Address-IT

**Address Verification Results**

**Verification Results**

Conf. Level	Address1	City	State	Zip
0	123 N Main St	Sandwich	IL	60548
0	123 S Main St	Sandwich	IL	60548

If multiple address matches exist, Address-IT automatically alerts you so that your sales or customer service department can verify the address with the customer.

**Address Verification Result Detail**

Confidence Level: 78

Address1: 2401 Hassell Rd Ste 1525

Address2:

Address3:

Address4:

City: Hoffman Estates

State: IL

Postal Code: 60169-2000

You can also double click the address to view more detail about the address, as shown above.

## Eliminate Additional Freight Charges on Residential Addresses

When residential deliveries are erroneously classified as commercial deliveries, additional carrier charges (as much as \$2.50/package) often apply. If your company pays for the freight and adds it to the customer invoice, you've just lost the opportunity to pass the additional cost to the customer. Address-IT shipping software eliminates this problem by correctly categorizing all residential orders for you.

## An Effective Way To Enhance Service and Control Costs

With Address-IT's smart address checking tools, you can be proactive in resolving address issues that cause delivery delays, additional freight costs, lost productivity and the threat of a lost customer. For more information, please call ADSI at (877) 755-2374 today.
